Age Range: All Ages

Number of Deaths by Means^ANumber of Deaths by Location Type^ASubstances Recorded^{AA} in Suicide DeathsCircumstances Recorded^{AA} in Suicide Deaths^AOnly suicide means and location types reflecting >1% of suicide deaths are visible in each chart.^{AA}Substances and circumstances are not mutually exclusive; more than one substance and more than one circumstance can be recorded in each suicide death. Substance and/or circumstance data are not available for all deaths. While a substance may be recorded, it is not necessarily the primary cause of death.

*Data suppressed due to small numbers (count between 1-5) or if only one category is suppressed the next lowest category is also suppressed.

Note: Suicide death counts in this dashboard, based on data from the National Violent Death Reporting System (NVDRS), may differ from those in the Vital Statistics Death Dashboards. Please see the "About the Data" tab for more details.
